SELF SOLUTIONS FOR SECURITY SYSTEMS

OVERVIEW

Founded in 2013, the Security Systems Division at Self Solutions Contracting has become a trusted leader in the Kingdom of Saudi Arabia, specializing in the design, implementation, and maintenance of advanced security technologies.

With over a decade of experience, the division delivers integrated solutions that include CCTV surveillance, fire alarm systems, intrusion detection, access control, intercoms, attendance systems, GPS vehicle tracking, and public address systems, all tailored to meet the needs of both government and private sector clients.

Self Solutions proudly partners with globally recognized brands such as Hikvision, Dahua, ZKTeco, Bosch, and Morley by Honeywell, ensuring world-class quality, reliability, and compliance with Saudi Civil Defense regulations and international standards.

Our mission is aligned with Saudi Vision 2030, as we continue to expand our reach and adopt sustainable, intelligent practices that make us a preferred security partner across vital sectors.

OUR CORE VALUE

VISION

To be the leading company in Riyadh, providing top-tier services in construction and contracting, security systems, telecommunications, and maintenance contracts. We aim to set the benchmark for innovation, quality, and sustainability, contributing to Saudi Arabia's Vision 2030.

MISSION

We are committed to providing innovative and reliable solutions by incorporating cutting-edge technologies, enhancing operational efficiency and building strong partnerships, ensuring customer satisfaction and achieving sustainable growth.

QUALITY

We uphold the highest standards in every project, focusing on precision, efficiency, and sustainable outcomes. Our commitment to quality extends from planning and execution to after-sales service, ensuring lasting value for our clients and stakeholders.

CUSTOMER SATISFACTION

Customer satisfaction is at the core of everything we do. We create lasting partnerships and trust with our clients by offering customized solutions and ensuring post-project support. We constantly strive to exceed expectations and build loyalty by exceptional service.

RESPONSIBILITIES

Towards Clients: Providing exceptional services that meet and exceed expectations, offering reliable post-project support.

Towards Employees: Ensuring a safe and inclusive work environment with opportunities for training and growth.

Towards Society: Contributing to developing local communities and creating job opportunities.

Towards the Environment: Applying sustainable practices and minimizing our environmental footprint.

Towards Partners and Stakeholders: Fostering transparent communication and long-term, mutually beneficial relationships.

CEO MESSAGE

**“BEFORE YOU ARE A LEADER,
SUCCESS IS ALL ABOUT
GROWING YOURSELF.**

**“WHEN YOU BECOME A
LEADER, SUCCESS IS ALL
ABOUT GROWING OTHERS.**

Towards a Future Full of Achievements

Dear Partners and Investors,

At Self-Solution, we have achieved significant milestones through our commitment to delivering comprehensive solutions in construction, security systems, telecommunications, and maintenance contracts. As Saudi Arabia continues its journey toward Vision 2030, we are dedicated to solidifying our position as a key partner in infrastructure development.

We believe that innovation is the key to growth, which is why we integrate AI technologies to enhance operational efficiency and deliver advanced solutions. Our partnerships with global leaders like Dahua, ZKT, and Avaya further ensure the delivery of comprehensive and cutting-edge services.

With numerous successful projects completed in collaboration with government entities and key partners, we look forward to expanding our services and further contributing to local economic growth.

I extend my sincere gratitude to our team and strategic partners for their continued trust and support. Together, we are ready to achieve even greater success and build a brighter future.

ENG. Omar Salem
Chief Executive Officer, Self-Solution Contracting Company

OUR SERVICES

SURVEILLANCE SYSTEMS (CCTV)

1

Indoor and outdoor surveillance solutions with high-resolution cameras, supporting live viewing and network recording, equipped with motion detection and night vision features.

INTERCOM SYSTEMS (INTERCOM)

2

Advanced audio and video systems to facilitate communication within facilities and control visitors through reliable screens and speakers.

TIME AND ATTENDANCE SYSTEMS

3

Fingerprint, card or face devices to accurately link employee attendance with payroll systems and time reports.

ACCESS CONTROL SYSTEMS (ACCESS CONTROL)

4

Secure access control using magnetic cards, pin codes, or biometric devices, with detailed reports and integration with cameras and alarms.

OUR SERVICES

VEHICLE TRACKING SYSTEMS (GPS TRACKING)

5

Live tracking of vehicle movement with location and route reports, supporting instant alerts and smart fleet management.

BURGLAR ALARM SYSTEMS

6

Quick detection of unauthorized movements through door, window and breakage sensors, linked to sound alarms and real-time alerts.

FIRE ALARM SYSTEMS

7

Advanced smoke and heat detectors with centralized control panels and sound and light alarms, according to civil defense requirements.

SOUND SYSTEMS

8

Design and installation of internal sound networks for buildings, mosques and schools, including automated distribution of announcements, alerts and call to prayer.

OUR COMPETITIVE ADVANTAGES

COMPLETE SOLUTIONS UNDER ONE ROOF

We cover all security systems needs from consulting to implementation and full handover.

OUR RELIANCE ON TOP GLOBAL BRANDS

We deal with globally trusted manufacturers to ensure long-term quality and reliability.

SPECIALIZED AND TRAINED TECHNICAL TEAM

Our team has certified certifications and hands-on experience in installing and operating various systems.

DEEP UNDERSTANDING OF LOCAL MARKET REQUIREMENTS

We have long experience in dealing with government and private organizations in accordance with Saudi regulations and specifications.

AFTER-SALES SERVICE AND ONGOING TECHNICAL SUPPORT

We follow up with the customer even after the project is completed to ensure optimal performance and provide support when needed.

FLEXIBILITY IN PROVIDING SOLUTIONS AND INTEGRATION

We design systems to suit the nature of the facility and the size of the operations, with the possibility of linking systems together.

SOME OF OUR PREVIOUS WORKS

SECURITY SYSTEMS FOR GENERAL DIRECTORATE OF PRISONS

Value: 12,626,420 SAR

Completion rate: Ongoing (3-year maintenance contract)

Expected completion date: September 2024

Scope: Maintenance of surveillance systems and accessories across prison facilities.

SECURITY CAMERA INSTALLATION - CIVIL DEFENSE KINGDOM-WIDE

Value: 1,702,969 SAR

Completion rate: 20% (in progress)

Expected completion date: September 2024

Scope: Supply and installation of security camera systems across multiple Civil Defense facilities in the Kingdom.

SECURITY CAMERAS FOR SPECIAL FORCES

Value: 297,352 SAR

Completion rate: 100%

Completion date: October 2017

Scope: Full supply and installation of security surveillance systems.

VILLAS IMPLEMENTATION PROJECT - ROSHAN

Value: 150,000,000 SAR

Completion rate: 90%

Scope of work: Implementation of villas and turnkey in cooperation with The Art Contracting Company.

SECURITY INSTALLATION FOR ROYAL PALACE - PRINCE FAISAL BIN SALMAN

Value: Confidential

Completion rate: 100%

Scope: Integrated security and access control solutions for private royal facilities.

AI SUPPORT

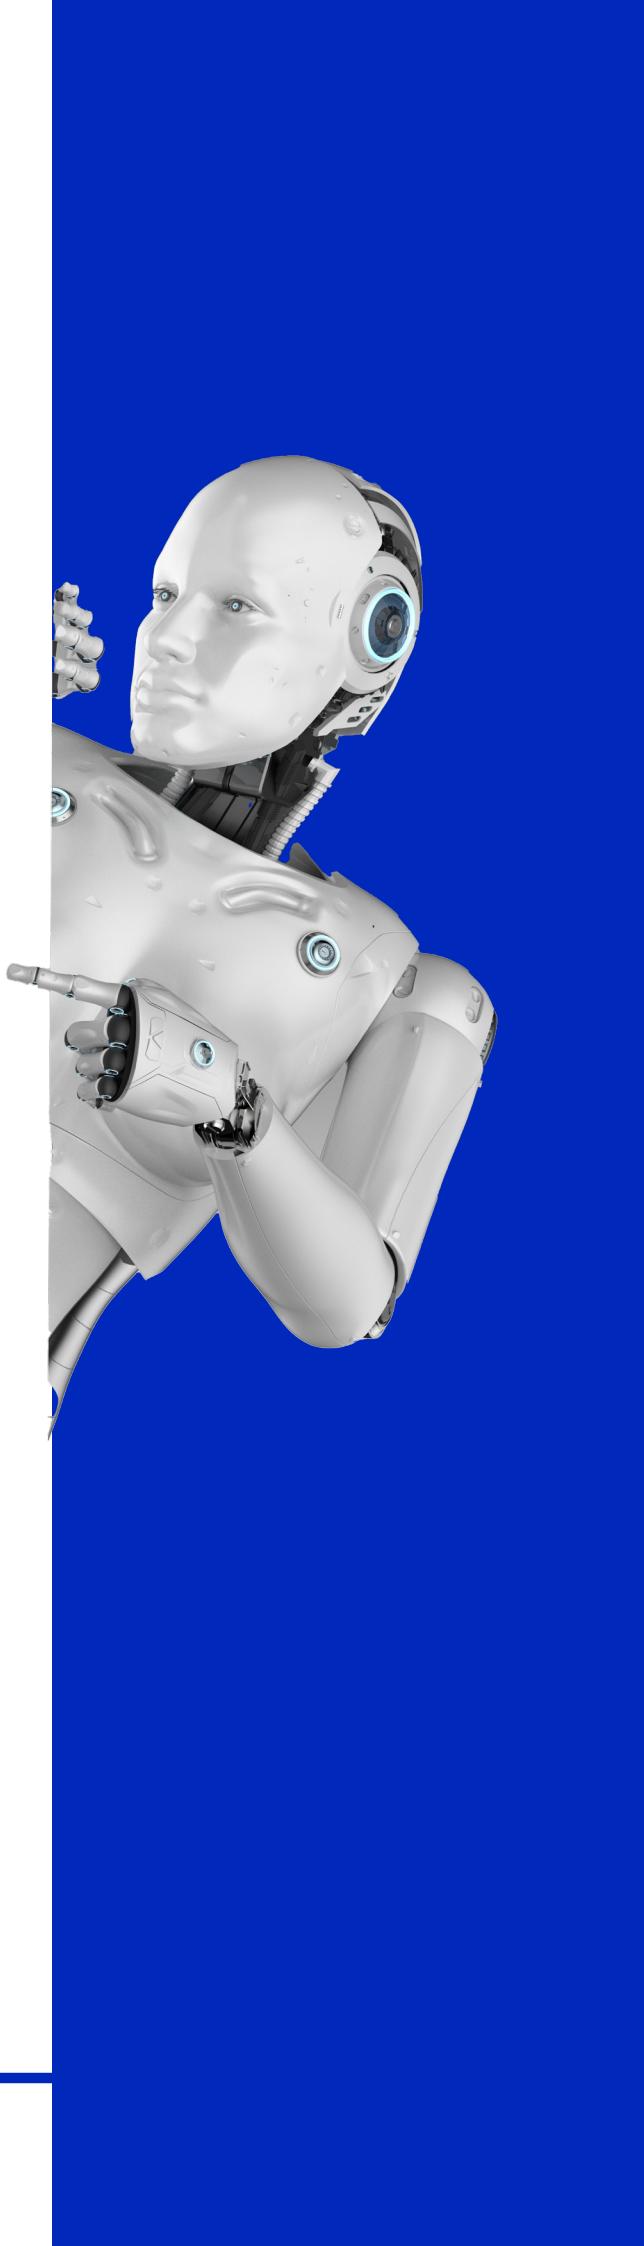

At Self-Solution Contracting Company, we believe that the future of security lies in intelligence – not just infrastructure. As a pioneer in adopting Artificial Intelligence (AI) technologies in Saudi Arabia, we have seamlessly integrated AI into our security systems to provide advanced, proactive, and adaptive protection for our clients.

Our approach to AI-powered security starts with intelligent surveillance. Modern CCTV systems are no longer passive tools – with AI capabilities such as facial recognition, motion detection, and object tracking, they have become active defenders capable of analyzing live video feeds and generating instant alerts when suspicious activity is detected.

In addition, our systems utilize behavioral analytics to monitor crowd movement and patterns. These algorithms can identify irregular behavior, flag potential threats, and provide early warnings to security teams, greatly enhancing situational awareness in high-risk environments.

Access control solutions have also evolved through AI. By combining biometric technologies with real-time data analysis, our smart access systems can learn user behavior, detect anomalies, and automatically respond to unauthorized entry attempts – providing a dynamic and highly secure environment.

Furthermore, we apply predictive analytics to security infrastructure. Our platforms process historical and real-time data to forecast equipment failures, detect weak points, and recommend preemptive actions – reducing down
